Lucas Nørgård

✉ lucasnrgaard@gmail.com   in linkedin.com/in/lucasnrgaard   ⌘ github.com/luxass

Software engineer and DevOps specialist with extensive experience in web application development, software architecture, and infrastructure management. Currently maintaining robust Kubernetes clusters and critical microservices at Region Midtjylland while building secure integrations for healthcare technology.

Specialized in Rust, Go, Java and TypeScript with a passion for developer experience, CI optimization, and creating tooling that empowers development teams. Committed to open source contributions and designing scalable systems that deliver measurable impact in collaborative environments.

Experience & Education

🏛 **DevOps Engineer @ Region Midtjylland**   September 2024 — Present

As a DevOps Engineer at Region Midtjylland from September 2024 to Present, I play a crucial role in ensuring the timely completion of solutions by assisting various teams. My responsibilities include collaborating with my team to maintain a robust Kubernetes cluster, which is essential for the deployment and scaling of applications. Additionally, we manage several critical microservices that are vital to the organization's operations, ensuring they run smoothly and efficiently.

🏛 **Software Developer @ Region Midtjylland**   May 2023 — September 2024

As a Software Developer at Region Midtjylland from May 2023 to September 2024, I developed clinician-facing solutions to enhance daily workflows, implemented features to protect clinicians during their work, improved efficiency and safety in clinical environments, and focused on user-friendly interfaces for a better clinician experience.

🎓 **Viden Djurs**   August 2020 — November 2023

Open Source Projects

Here are some notable open source projects I have contributed to and maintain. These range from developer tools to utility libraries.

vitest-testdirs github.com/luxass/vitest-testdirs A utility for Vitest to create isolated test directories	**unplugin-yaml** github.com/luxass/unplugin-yaml Allow import YAML file for Vite, Webpack, Rollup and esbuild. With TypeScript support. Powered by unplugin.
github-schema github.com/luxass/github-schema Typed GitHub GraphQL schema library for developers	**actions-kit** github.com/luxass/actions-kit A GitHub Actions toolkit for TypeScript
ucdjs github.com/ucdjs/ucd A JavaScript library for Unicode character data
